

## Welcome Message to the participants of the RENWEX 2021 International Exhibition

**D**ear colleagues,

I would like to invite you to take part in the Renwex 2021. Renewable Energy and Electrical Vehicles international exhibition which will take place on June 22-24, 2021 at Expocentre Fairgrounds.

Renewable energy is becoming an increasingly important and tangible factor in the economic, industrial, scientific and technological development of the country. The country's leadership attaches great importance to the introduction of various renewable energy support instruments and distributed energy technologies based on them. In recent years, Russia has implemented a coherent policy for the development of renewable energy sources.

The Renwex 2021 international exhibition is intended to showcase the achievements and developments of Russian and foreign representatives, as well as to discuss current issues in the development of renewable energy and alternative modes of transport.

The exhibition is supported by the Russian Ministry of Industry and Trade, Russia Renewable Energy Development Association, EUROSOLAR Russia Non-Profit Partnership for Development of Renewable Energy, Russian Solar Energy Association.

Renwex is an important stage of NTI Expo (the Research–Technology–Innovation Expo) project, which is organised by the Russian State Duma Committee on Education and Science, the Russian Chamber of Commerce and Industry, AO EXPOCENTRE with support of relevant ministries, and designed to promote introduction of scientific achievements into production.

The exhibition's product sectors include topical issues of development of wind power, solar power, hydropower, bioenergy, solid household waste as renewable energy sources, network infrastructure, industrial energy efficiency, and electric transport.

I am confident that the exhibition will become an effective platform for demonstrating achievements and discussing priorities for renewable energy development!

**Vladimir Kononov**

Chairman of the Organising Committee  
of Russian Week of High Technologies  
Deputy of the State Duma of the  
Russian Federal Assembly
