

## Welcome Message to the participants of the RENWEX 2021 International Exhibition

**D**ear colleagues,

On behalf of the Russian Ministry of Energy I would like to welcome you at the RENWEX 2021. Renewable Energy and Electrical Vehicles international exhibition and forum. Every year, the role of green energy and environmental responsibility in the policies of Russian companies in the fuel and energy sector is growing rapidly. Today, the challenge is to ensure sustainable socio-economic development and to strengthen the position of the Russian Federation in the global market.

The modern energy sector is undergoing various upgrades: domestic technologies are gaining in popularity, energy efficiency projects for equipment are being introduced and green energy trends are actively spreading.

The RENWEX 2021 exhibition and forum is a platform for exchanging experiences and solutions in the field of renewable energy and for finding a consensus between representatives of the energy sector.

I wish the participants and guests of the events productive cooperation and successful work!

**Pavel Sorokin**  
Deputy Minister of Energy  
of the Russian Federation
